

Strawberry:

Enjoy the unique flavor of Egyptian strawberries. Egyptian strawberries offer exceptional quality with their sweet taste and perfect texture, rich in essential vitamins and minerals like Vitamin C and antioxidants. Grown in Egypt's ideal climate, they are eco-friendly and of high quality, allowing them to be harvested fresh and ripe. Ready to meet the demands of European markets.

Our Main Varieties:

- **Fortuna:** vibrant red, uniformly shaped, and sweet, with a firm texture ideal for export. Known for high yields and disease resistance, they suit both fresh markets and processing.
- **Festival:** Known for its bright red color, sweet flavor, and firmness, Festival strawberries are ideal for fresh consumption and are highly popular for export
- **Florida:** often chosen for its large size and slightly acidic yet sweet taste, Florida strawberries hold up well in transport, making them ideal for export.
- **Sunsation:** known for their large, bright red berries with a firm texture and sweet flavor. Ideal for sunny climates, they offer high yields, disease resistance, and long shelf life, making them perfect for fresh markets and export.
